

Mixmate Pro 9 Input Double Stack Bulk Plumbing Diagram

Diagram PR-9

Mixmate Pro Inductor with three bulk valves and a six input Double Stack for a total of nine inputs. Chemicals connected to a stack are measured with gear type flowmeters. Chemicals connected to the inductor are measured by weight. Up to two bulk chemicals will be measured simultaneously while using the inductor. The price of this configuration is: \$34,692 Consult your dealer for variations to this configuration.

Optionally add the three inch valve and flowmeter to automatically measure and control the water in the mix.
\$4,098
